Reconsideration of the rejection of claims 114-127, 129 and 130 under 35 U.S.C. §251 is respectfully requested.

The Examiner has suggested that the claimed "method" claims of the instant application omit material limitations that were used to obtain allowance of "apparatus" claims 1-12 in the original patent.

Applicants do not dispute that some "method" claims, by definition adopted by the United States Patent and Trademark Office, are "broader" than apparatus claims; See, MPEP §1412.03, Rev. 2, May 2004, pages 1400-24.

However, "broadening" is not synonymous with "recapture."
